

BENEFITS

About us

The Treatment Foster Care Program (TFC) provides an important resource along the continuum of care for children and families. We recruit, train, and support treatment foster care families. This innovative approach sees treatment foster care parents contracted as professional service providers and compensated accordingly.

The program offers

Access to Ranch Ehrlo's integrated range of treatment, including:

- Individualized child & family treatment planning
- Clinical Assessment and Resource services
- Counselling services
- Occupational therapist
- Speech language therapist
- Equine therapy
- Paper Crane expressive arts service
- Birth family involvement in planning and decision making
- Family reunification whenever possible
- Caseworker provides individual parenting sessions and in-home family sessions
- Youth treatment groups
- Program workshops

It also offers the following family benefits:

- Professional salary for caregiver
- Teamwork approach with other foster parents
- Coordinated respite services available at any time
- 24-hour on-call support

Qualifications of a professional caregiver

Ranch Ehrlo Society's Treatment Foster Care Program

Are you ready for a truly life transforming experience? We were!

“Being a foster family has expanded the hearts of our whole family. It is a privilege and honour to be a part of a child’s growth and healing. We are proud to be a foster family.”

“Every foster care journey is different. We believe everyone can do something. We believe we are all called to come alongside, encourage, support, love, and care for those who are vulnerable.”

Janelle & Logan

Brittanie & Sam

“It has been a privilege for our family to create a place of love and belonging that fosters healthy development in children thereby making a difference in our province. Ranch Ehrlo has supported us with resources to help each child grow in their potential.”

“Family is where life begins and love never ends. Share your love, your family, and home today and become a treatment foster family. The team approach and support offered to our family made such a difference.”
